# MAN THREATENED BY CARRANZISTAS

PERSHING'S NEXT MOVE WILL BE CONSIDERED HOSTILE BEMONSTRATION.

### AMERICAN BOYS UNDER ARMS

Street Car Traffic Into Stormy Republic Ceases—Encounter Reportod Near San Benits-Three Sandita Slain.

Chihushua City, Mexico.-Gen. Secinto Trevino, commanding the Carranzista army of the north, ad-vised Gen. J. J. Pershing, American expeditionary commander, that any movement of American troops from their present lines to the south, east or west would be considered a hostile act and a signal to commence war

Gen. Trevino acted upon specific in structions from Gen. Carranga.

Our Boys Under Arms. Paso, Texas.-All American troops stationed in El Paso and its environs were ordered to quarters to be held under arms until further no tice. The orders followed reports to military headquarters that placards printed in Spanish had been posted in Juares, instructing citizens to gather at designated points daily to receive military instructions that they may be prepared to repel possible in-

vasion. The notice was signed by Jesus Valdez, a private citizen, who said he wished his people to "be prepared in the event of a break with the United States."

At the office of Gen. George Bell Jr., commandant, no explanation of the order was given, it being asserted that the orders were "merc precautionary measures."

Companies Camped in Streets. Included in the troops ordered to quarters were several companies of infantry which have been encamped

in the streets of the city. As a further precaution, street car traffic from El Paso to Juarea was

stopped. Reports of a Mexican raid near Canutillo, about 15 miles north of here, caused some excitement until it developed that the trouble was a private affair between ranch hands. Two Mexicans, after killing a fellow Mexican in a quarrel, were chased by a sheriff's posse into Mexico.

Clash at San Benito. Brownsville, Texas.-United States ops came upon a band of between 25 and 30 Mexican bandits about 10 miles east of San Benito, Tex., and after exchanging a few shots the Mexicans scattered.

It is reported three Mexicans were killed. So far as known, there were no American casualties.

San Benito, which is near the international boundary, has been the scene of numerous raids of Villa followers and other bandit bands.

ployed in Service of Invaders.

London, England-The Telegrant of Amsterdam learns from the Belgian frontier that it is announced from a Belgian official source that the Ger mans have taken strong measures against the young Belgians who come within the regulations for incorporation in the army. It is asserted that all these young men will be employed in the service of the hostile army.

La Metropole, the Belgian newspaper published in London, learns from an authoritative source that the Belgian council of ministers has unani mously decided on the proposal of Baron de Broqueville, minister of war, to call out for service all ablebodied Belgians, both single and married, between the ages of 18 and 35, who have not enlisted hitherto.

### BIOGRAPHICAL SKETCH OF REPUBLICAN CANDIDATE

Charles Evans Hughes Has Berved a Prosecutor, Governor and Supreme Court Judge.

The dishonest corporations of New York long knew Charles Evans Hughes as their deadly enemy. He put the gas combine out of business. He sent a dozen big insurance manipulators into exile. He fought and defeated the political ring. He refused to permit the gamblers-big and little-to blacken the name of the Empire state. He is a student, an outdoor man and a Christian.

Hughes comes of good stock. His father, Rev. David C. Hughes, who was a Baptist minister, and his mother, whose maiden name was Mary C. Connelly, were of more than usual culture and shaped the boy's early education with the object of preparing him for the ministry.

Charles was born at Glens Falls, N. Y., April 11, 1862, but when he was very young his parents removed to Newark, N. J. Here the boy attended the public schools, from which he was graduated in 1873.

Has Fine Education.

He matriculated at Madison university of Hamilton, N. Y., the school which is now known as Colgate university. Remaining here until 1878, he decided that the curriculum of Grown university would suit him better, and there he entered and was graduated in 1881. His degree of A. M. came in 1584, the same year ta which he was graduated from the Columbia law school.

At the close of his college days Hughes was of extremely frail appearance and of delicate physique. His inclimation was to enter the educationafield, but he found difficulty in obtaitint employment.

nomitted to the Bar in 1884. In 1884 Mr. Hughes was admitted to the our in New York, and practiced

antil 1551. On December 5, 1888, no married to Brooklyn Miss antoinesse Carter, the daughter of Walter S. Certer, a memher of his law firm.

His tendency to teach was still strong within him, and despite the erotesis of his father in law, who wished him to continue with the firm. no accepted a chair in Corneli universky law school for a time

Gas investigation Stire.

This brings Mr. Hughen career cown to the beginning of the eas inrestigation in New York on lavest!gation that stirred the metropolis as nothing had stiered it since the Twoca rink exposure.

Probably no one single investigation gver produced such far reaching resules as the insurance probe which Hugnes made:

Mr. Hughes took office as governor January 1, 1907. He secured the persage of laws placing public utility corcorretions under the control of state cubile service commissions, stopped race-track open gambling, and instisutse notable serorms in the consideration and conduct of public affairs 4: Albany.

in 19 s he was renominated for govarnor and again elected. He did not finish his second term. On May 7, 1910. President Taft appointed him as seaseciate justice of the United States Supreme court

Traits of Hughes Semily. Simplicity is the keynote of the home life of Mrs Charles E Hughes

dome diswe by Hugher. "I believe in work, hard work and for on minutes." Harper's Feekig. long hours of work. Men do not break down from overwork, on, from worry

I potice that most successful mer are those whose minds are always cool, who, no matter how swift the movements of their bodies, are able raim, sober judgment even under disturbing circumstances. It is not the man who reaches the corner first who wine, but the man who knows exactly what he is going to do when he ceaches the corner.

regard a successful man as one who has utilized to its fullest extent the best ability is him. One man may have great ability as a money maker; then he would be successful when he had made much money. Another man may have ability as an artist, he is puccessful when he has wen fame by his art. If a man leaves any one of his talents to lie idle he is not a successful man. Mere money making is a poor nort of success. "My views on religion are not what

most of my church friends would regard as orthodox; in fact, I have rather tree views, but I recognize that we have in the church the greatest conservative force in our affairs, and if for no other reason than this, I feel that it should be supported. There is a lot of cant about it, but it has a great power for good, whether one agrees or not with the teachings of its min 'sters.'
